Last Revised Date	N.A

POLICY ON CONSERVATION AND PRESERVATION OF THE ENVIRONMENT

MAM recognizes protecting and nurturing the environment as one of its primary responsibilities in its area of operations and value chain. We will strive to become a role model for the mining Industry by going beyond compliance through:-

- Integrating risks and opportunities relating to the environment in business strategies and decisions.
- Continuous evaluation of environmental impact and adoption of appropriate practices and technologies to mitigate adverse effects.
- Efficient utilization of natural resources in our areas of operations and minimize wastes
- Developing new grades of minerals with lower life cycle impact on the environment.
- Effective implementation of Environmental Management for continual improvement and reduce overall carbon footprint
- Engaging with internal and external stakeholders to develop circular economy for promoting environment friendly society.
- Raking Lead on Environmental conservation initiatives and preservation of bio-diversity around areas of our operation.
